Job Summary:

We are seeking a talented Senior React Developer with 6+ years of experience in the e-commerce and lending platform industry to join our development team. The Senior Software Engineer will be responsible for leading the development and maintenance of our e-commerce and lending SaaS platform on web and mobile platforms. You will work closely with cross-functional teams, including designers, product managers, and stakeholders, to deliver high-quality software that meets the evolving needs of our customers in the e-commerce and lending space.

Responsibilities:
• Proven experience in building and maintaining design systems and component libraries.
• Strong proficiency in JavaScript, TypeScript, HTML, CSS, SCSS and CSS Modules
• Deep understanding of React.js and its core principles.
• Experience with state management libraries such as Redux or Context API.
• Familiarity with modern front-end build pipelines and tools (e.g., Webpack, Babel).
• Knowledge of responsive design principles and best practices.
• Familiarity with design tools such as Figma Excellent problem-solving skills and attention to detail.
• Strong communication and collaboration abilities.
• Ability to manage multiple tasks and prioritize effectively in a fast-paced environment.

Requirements:
• Bachelor's or Master's degree in Computer Science, Software Engineering, or related field.
• 6+ years of experience in developing web and mobile applications using React and related technologies in the fintech industry.
• Proficiency in React, JavaScript (ES6+), HTML, and CSS.
• Strong understanding of RESTful APIs and experience in integrating with APIs.
• Experience with Agile development methodologies and working in cross-functional teams.
• Excellent problem-solving skills and ability to troubleshoot and debug code.
• Strong communication skills and ability to work collaboratively in a fast-paced environment.

Location: Hyderabad
